

SIMPLE IMPLANT SOLUTIONS FOR THE MODERN DENTIST

**The GP's Course on Placing Implants:  
Simple Implant Placement for the Modern Dentist  
with live implant surgery**

*featuring*  
**Jeffrey Gross, DDS, FAGD**

The training course is designed to give a doctor who has never placed an implant the knowledge and tools necessary to perform a simple implant surgery using the Zuga Implant System.

**Course topics:**

- Implantology fundamentals
- Presenting implants to your patients
- Extracting, bone grafting and suturing techniques
- Medical considerations
- Case selection – ideal cases to start with
- Case planning – selecting the right size, implant positioning
- Flap or flapless procedures
- Surgical/drilling protocol and implant placement
- Post-op management and managing complications
- Restoration protocol
- Live patient case presentation and live surgery

**Hands On:**

- Bone grafting techniques, bone graft placement
- Suturing techniques on models
- Drill sequence protocol and drilling techniques
- Implant placement on models
- Impression techniques using Zuga's patent pending Margin Ring

**Participants are encouraged to bring potential cases to discuss**

**about Dr. Jeffrey Gross**

Dr. Gross received his D.D.S. from Case Western Reserve and has been practicing general dentistry, including specialty procedures, for over 40 years along with implant dentistry for over 20 years. He has lectured locally, nationally and internationally on topics including extractions, bone grafting and implantology.
