State-of-the-art facility, 8-operatory clinic, restaurant, and hotel all under one roof!
• All inclusive • Open to doctors worldwide •

GuidedSMILE™

Join WIIC and ROE for a truly unique, educational, hands-on, live implant placement experience.

Date: March 7—11, 2018

CE Credits: 35

Cost: \$15,999

Travel to safe Puebla and perform All-On-X surgery utilizing a medical device called GuidedSMILE CHROME. WIIC is a charity- and education-funded, advanced clinic, with a patient base in need of full arch and full mouth reconstruction. Most of the implant recipients are long-term patients of the permanent dentist in the clinic, and are all delighted to be a part of the program.

This is a Fully Guided Implant Placement Course:

- GuidedSMILE CHROME is the answer for dentists who desire a preplanned, guided All-On-X surgery
- Take home the skills necessary to complete cases in your own practices without the need for lab assistance
- Guided system based upon pre-surgical records, not day of surgery bite
- Predetermined bone reduction coordinated with the smile line and prosthetic tissue junction
- Fully digital workflow in state-of-the-art facility, featuring SLM CO/CR Fixation Guidance
- Delivers a new smile in a short amount of time in a very predictable system
- Learn to implement the R2 Fully Guided MegaGen Surgical Kit
- \$15,999.00 all inclusive except airfare

Agenda:

Hours of lecture; Learn to utilize a fully guided surgical kit; learn to place single implants fully guided; learn to place multiple implants fully guided; then on the last day perform GuidedSMILE under the supervision of experts in a team approach.

If you're looking for the next level of implant training and a predictable method of delivering a pre-planned surgery, this is your live course. Sign up today by calling:
