Show off those beautiful teeth.

SMILE ON

with CLEARline

- ✓ Nearly invisible
- ✓ Comfortable to wear
- ✓ Stain resistant for a bright smile
- ✓ Easy to remove

4 EASY STEPS

1 Consultation

Talk to your doctor to find out about a treatment plan that is right for you.

2 Impression

Your doctor takes an impression or intraoral scan of your mouth.

3 Clear Aligners

Your **CLEARline** ortho aligners are precisely produced just for you from material that ensures comfort.

4 Treatment

Your doctor will monitor your progress.

Ask your doctor if **CLEARline** is right for you.

Why **CLEARline**?

Now you can have the smile you've always wanted at a price you feel good about. **CLEARline** ortho aligners are a comfortable, affordable, and effective way to straighten your teeth. They are made from FDA-cleared, premium material, and are expertly manufactured in the USA. Treatment plans are customized to your unique smile, so you get the results you want in as short a time as possible.

How long is the **treatment**?

Treatment times differ for everyone, but generally last less than one year. Your doctor will work with you to determine a timeline for your specific smile, and will decide if you should change your clear aligners every week or every two weeks.

What makes **CLEARline** the **ideal choice**?

- Made with engineered dual shell plastic material for faster treatment
- Tear and stain resistant
- BPA and phthalates free
- Manufactured using FDA 510(k) cleared, MDSAP certified processes
- Manufactured in USA

Your path to a **beautiful smile**.
